Dear Parents,

## Remote Learning Expectations (KS1)

Whilst your child is away from school, their teachers are working hard to ensure their education continues. They will keep in touch with your child through Seesaw – an online learning platform which can be accessed on a laptop, smartphone or tablet.

Children will be sent a variety of tasks and activities to complete each day and their teachers will be able to give them support and feedback on those tasks.

We understand that this is not an ideal learning situation, however, at Kader, we want to provide as much help and support as possible to each of our students.

All of the tasks are designed so that children can access them with minimal support from you. Teachers will provide both written and, where necessary, verbal instructions for each task.

Tasks will be uploaded daily and dated for the child to complete. These tasks remain on their page until they are completed and submitted to their teacher. If they need help, children can ask questions by leaving a comment or a voice message and their teacher will respond as soon as they can.

Although teachers will offer a broad and varied curriculum for each class, we have set out below the minimum expectations for remote learning:

- All children should complete the **maths, phonics** and **SPaG** (Spelling, punctuation and grammar) tasks set **daily**.
- Children can complete additional activities once the compulsory activities are completed.

Should you have any questions regarding the work set, you can contact your child's teacher by:

Email on [kayear2@kaderacademy.org.uk](mailto:kayear2@kaderacademy.org.uk)

Or through the Seesaw Family app

For Seesaw log in queries, please contact the school office on 01642 286599.

Finally, we want to thank you in advance for your understanding, help and support.
