Principal: Mrs A Mitchinson

Dear Parents/Carers,

As you may recall Kader has long been planning on building a football pitch/MUGA on the school field. As you can imagine over the last year plans have been put on hold. I am pleased to say that plans for this are starting to move forward once again! We are of course in the very early planning stages but I would like to inform you of where we are currently at.

We want to build a pitch on the school field with space for either a 7v7 or two 5v5 matches to take place. The pitch will be built away from any of the houses that back onto the school field, with careful planning to not create any disturbances to our neighbours. The pitch will be an amazing addition to our school facilities and will create a space to be used for sports in all weathers. The pitch would be a long pile similar to 3G pitches but without the rubber infill which reduces plastic pollution while performing in an almost identical manner. We will be able to use the pitch for both football and rugby practice.

An important part of this project for us is also providing a space for the local community to use, and encourage people of all ages to get involved in sports. I feel that especially after lockdown we could do with a local space where people can come together and exercise. We are planning to charge a small fee to use the pitch in order to fund its build and to be able to run it.

Before we go any further though we want to hear from you. I therefore would like to ask you if you have anything to say on the project. Would you or anyone you know be interested in using the pitch? Are you a part of any local teams who would benefit from this pitch?

Please get in touch either by phone 01642 286599 or email school.enquiries@kaderacademy.org.uk

Yours Sincerely

Mrs A. Mitchinson
Principal
