

THE KADER CONNECT

Week beginning: 26/04/21

Welcome to the Kader connect, Kader's weekly round up! Here we will be sharing insight into what is going on here at Kader across all year groups and celebrating our lovely children!

Thought for the weekend
EVERY ACCOMPLISHMENT STARTS WITH THE DECISION TO TRY

Mr Lavenick's keep fit task..

Jog on the spot for 3 minutes... stop breathe and repeat! How many sets can you do?

A Poem to Ponder...

Bank Holiday

Banks get holidays
They need a little rest
They need recuperation
To do their banking best

Poets don't get holidays
We're always here on call
Writing always - 365
We don't get breaks at all

If poets took a breather
And played that little game
This poem wouldn't be here
And that would be a shame

A message from Mrs Mitchinson

Writing within school

I have loved to see the different year groups writing this week. Creative writing is one of my favourite things. Even the little Reception children were busy in the areas writing books! Wow! Independent writing at its best.

Dogs

Please keep dogs on a very short lead and on the grass or in your arms. They must not go near any children.

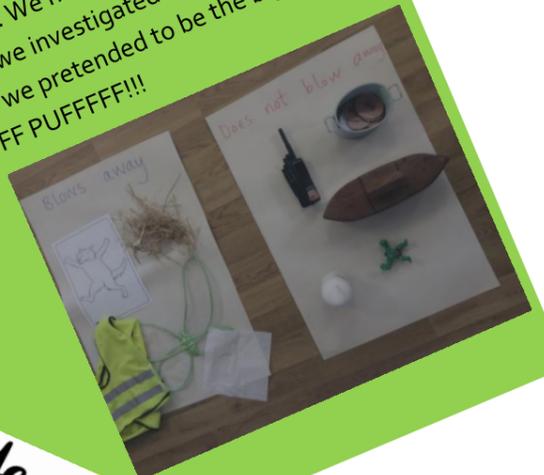

Nursery

We were back in the kitchen this week making edible frogspawn (jelly and raisins, not the real thing!!). We spoke about smells, taste and texture. The boys and girls also discussed the life cycle of frogs. They investigated frogspawn and the changes that happen.

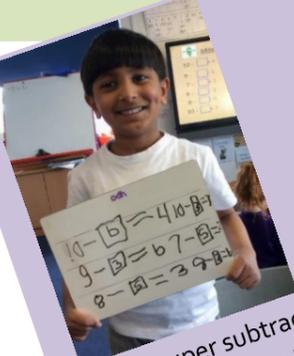

Reception

We have loved our new traditional tale - The three little pigs. We had a fantastic science lesson where we investigated which material blew away if we pretended to be the big bad wolf! HUFFFF PUFFFFF!!!

Year 1

We are super subtractors in Year 1. We have been working on missing number problems and word problems involving subtraction. The children are making good progress with this and are becoming more confident all of the time.

Year 4

In our numeracy lessons this week, we have been having a fantastic time learning about time. We have also been competing with the other year 4 class on Times Table Rockstars. We are so lucky that school have recently invested in new I-pads that we can all enjoy as a class!

This week we looked at reversible and irreversible changes using different types of food! It was great fun and the children really enjoyed this practical Science lesson. We believe that exploring and investigating in this way really brings Science to life!

Year 5

Year 2

Year 2 have been learning all about possessive apostrophes. We had so much fun labelling things around the classroom and using an apostrophe to show that it belonged to someone!

Year 6

This week in Year six we had a really grown up lesson discussing organ donation and what it means. It was lovely to listen to the children's view points and to see them really thinking about this.

Year 3

This week we have continued to develop our knowledge of fractions. We have used lots of manipulatives to aid our understanding of fractions and how they must be equal parts, before moving onto finding the fraction of an amount! Keep up the great work Y3, this is a very tricky

Mrs Donalds - What made me smile!

Where do I start? There have been so many amazing things happening in school this week: Subtraction success in Year 2; Misty Mountain creative writing in Year 4; Tables superstars in Year 3 and so much more. Everybody is working so hard. It's been a very smiley week.
