

# THE KADER CONNECT

Week beginning: 11/10/21

Welcome to the Kader connect, Kader's weekly round up! Here we will be sharing insight into what is going on here at Kader across all year groups and celebrating our lovely children!

Thought for the weekend  
**WITH FALLEN LEAVES COMES THE PROSPECT OF NEW LIFE**

## A Poem to Ponder...

Autumn  
 As autumn leaves fall all around.  
 They make a blanket on the ground.  
 When winter winds begin to blow.  
 The roots are safe from the freezing snow.

## A message from Mrs Mitchinson

Eco shop

Please come along and show your support to our eco shop. We have such a wonderful selection of food every week and we hate waste. Your support is valued.

Wahoo!

My blood pressure at home time has been significantly reduced this week due to the parking around school being much better! Thank you all and keep it up.

## Mr Lavenick's keep fit task..

Keep going with beat the street! How many more points can we get?

## Nursery

Little, red riding hood had the special job of delivering fruit to her Grandma to help boost her immune system! We have been thinking about fruit and how it keeps us healthy. We made a delicious fruit salad and even helped to chop it all up.

## Reception

We learnt the importance of writing this week by delivering postcards using our local post box! You can't beat a good old fashioned letter. Well done Reception.

## Year 1

In science, we learnt about the four seasons and compared how the weather changes throughout the year. We then went on a walk around the playground to see how the trees are looking right now. We will be going again soon to see how they have changed!

## Year 4

In our science lessons this week we were given 2 wires a bulb and a battery, our challenge was to try and make the light bulb light up. It was quite tricky, but with some determination and perseverance we managed to get there and have our lightbulb moment!

## Year 2

We investigated Captain Cook artefacts this week and tried to guess what each was used for. It was a really fun, hands on lesson that the children thoroughly enjoyed.

## Year 3

We have loved reading this week! We have been exploring all the books in our reading area in class and found books that we adore. We have discussed and recommended books to each other that we have read and we can say... WE LOVE READING.

## Year 5

This week the children have taken part in an outdoor maths treasure hunt, making the most of the autumn sunshine!

## Year 6

In Maths, we have been learning about rounding and negative numbers, including lots of problem solving and hands-on activities. Bringing Maths to life really helps us to understand key concepts.

## Mrs Donalds - What made me smile!

The resilience and determination I have seen in Year 4 this week has really made me smile. Mathematics assessments are not always easy but you didn't give up and wanted to better yourselves. A fantastic attitude that will take you far in life.
