

THE KADER CONNECT

Week beginning: 15.11.21

Welcome to the Kader connect, Kader's weekly round up! Here we will be sharing insight into what is going on here at Kader across all year groups and celebrating our lovely children!

Thought for the weekend
What a generous Kader family we have. Thank you for your support for Children in Need.

Mr Laverick's keep fit task..

Can you throw and catch a ball? How many times can you do this before you drop it? Can you get higher each time?

A Poem to Ponder...

An Awesome Autumn Day

The bustling wind, the crackling leaves

See them blowing from the trees.

Smell the crisp refreshing air.

Wind is blowing everywhere!

Colours surround us, so vivid and bright

What colours do you see, in this beautiful sight?

I see orange and purple, yellow and red

A big leaf just swooshed by my head.

@Cheerful Hearts

A message from Mrs Mitchinson

What a wonderful week for Athletics. Mr Laverick has had a big smile on his face and is so proud, as we all are.

The year 3,4,5 and 6 were amazing. They showed such team spirit, resilience and determination. With that attitude we can only keep going up.

Our Nursery children shone in assembly this week-singing nursery rhymes for the whole school. What super stars! The rest of the school have a hard act to follow.

Nursery

Our theme this week has been all about Nursery rhymes. We have learned lots of different Nursery rhymes including 'Little Miss Muffet', 'Incy, Wincy spider', 'Humpty Dumpty'. Activities in the classroom have ranged from designing spider webs, making and eating some porridge to matching our little sheep to Numicon pieces

Reception

We have had a super week subitising. We are fab at number work. Ask me about it at home!

Year 3

This week we have been searching for 'Mighty Metals' and looking at their properties. We then searched the school for anything magnetic and non-magnetic. We had so much fun!
In English, we have been so lucky to be able to read our books to the Year 6's during our 'reading for pleasure' time. The year 6's were very impressed with us!

Year 4

This week Year 4 have been busy writing some FANTASTIC diary entries. We have been trying hard to use emotive language to show just how upset Lila is with her father. Watch this space, we have some really budding authors.

Year 5

We have had a fabulous week in Year 5! In English we have been continuing our work on 'Hidden Figures', researching the amazing work of Katherine Johnson and Dorothy Vaughn. In our Maths lessons, we have been using practical methods to solve tricky division calculations. This week in science, we have created a moving model to show the movement of the Earth and the moon. We have finished the week off with some fantastic Pudsey clothes and costumes!

Year 2

YEAR 2 SUPER STARS!

The whole of Year 2 have been amazing this week. We have been completing practice SATs papers in Reading and Maths and their attitude has been astounding. They should be all so proud of themselves. We are!

Year 6

This week we have been working like scientists to plan and carry out a fair test whilst selecting appropriate equipment. Our focus has been on the impact battery power has on an appliance – we used light bulbs. We used our results too by plotting our data on scientific diagrams. Thomas Edison – move over!

Mrs Donalds - What made me smile!

It has been such an amazing week this week. Everybody has been working so hard. From Nursery to Year 6, the children have been working their socks off!

The Nursery children in assembly made me smile and I even had a little tear. I was so proud of each and every one of them.
